India's No. 1 by Market Share

INDIA'S
No. 1
STRUCTURAL STEEL TUBE COMPANY

Nature in all her infinite wisdom has made the world a kaleidoscope of colours. Where every hue weaves a unique story and paints a vivid backdrop to elevate our existence. Which is why, when we decided to redefine roofing, we embarked on a colourful rebellion against the monotony of monochrome.

Welcome to our Roofing Look Book, a canvas adorned with inspiration, meticulously curated to help you choose the perfect hue for your roof. In this gallery of possibilities, your home emerges not just as a shelter, but as a masterpiece of personal expression.

CORAL

When naming our product, we couldn't think of a better choice than 'Coral'.

APL Apollo Coral embodies the strength and vibrant hues reminiscent of marine corals. And just like these resilient underwater colonies, it exudes a delightful array of colours while effortlessly shrugging off the harshest weather conditions.

APL Apollo Coral, much like coral reefs are known for their ability to thrive in challenging environments. Coral roofing sheets boast high-quality and strength, ensuring they withstand extreme weather conditions with ease. Just as coral reefs captivate with their intricate structures and vivid colors, these roofing sheets are designed to be both colourful and beautiful, adding an element of visual allure to any structure. Like the vital role that coral reefs play in our ecosystem, every aspect of coral roofing systems underscore our commitment to sustainability.
